Connecting 1 Billion People

ShineWing INDIA

One of our core initiative of connecting people in keeping with **AtmanirbharBharat**, is to connect 1 Billion people from various platforms. Humbled by the fact that **200M** loan disbursed by **Government of India** from our platform.

	Business/Internal/ Administrative users	Direct Benefited Citizens	Indirect Connected Citizens
Mudra	**10K**	**7.2M**	**20M**
Stand Up India	**0.13M**	**0.18M**	**0.5M**
Udyami Mitra	**0.14M**	**0.11M**	**0.5M**
BCC	**380+** Banking Clients		**19M**

+ over 500M Indians connected bi-weekly though the various websites and applications hosted with us

ShineWing INDIA

Connect 1 Billion Devices

By **2024** we will **connect 1 Billion devices** across India for enhanced functionability and connectivity.

380+ Banking Customers connected	With each having 500K Subscribers
POC Device	150K Subscribers
ATM Machines Installed	25K Connected
Card Transactions	900K
Connected to Cloud	Over 9K+ Bank Branches
30+ Smart City and World's 2nd Largest IoT project(Phase 1)	2M Devices Connected

~49M connected

https://www.esds.co.in

Becoming 1B$ Enterprise

ESDS has consistently grown **year-on-year**.
With future expansion plans, we will attain the prestigious unicorn status

2019-2020
Rs. 1.69B

2018-2019
Rs. 1.41B

2017- 2018
Rs. 1.01B

2016 -2017
Rs. 720M

2015- 2016
Rs. 510M

https://www.esds.co.in

Planting 1 Billion Trees for "Greener Planet"

Reducing **carbon footprint** with green technologies and increasing green cover

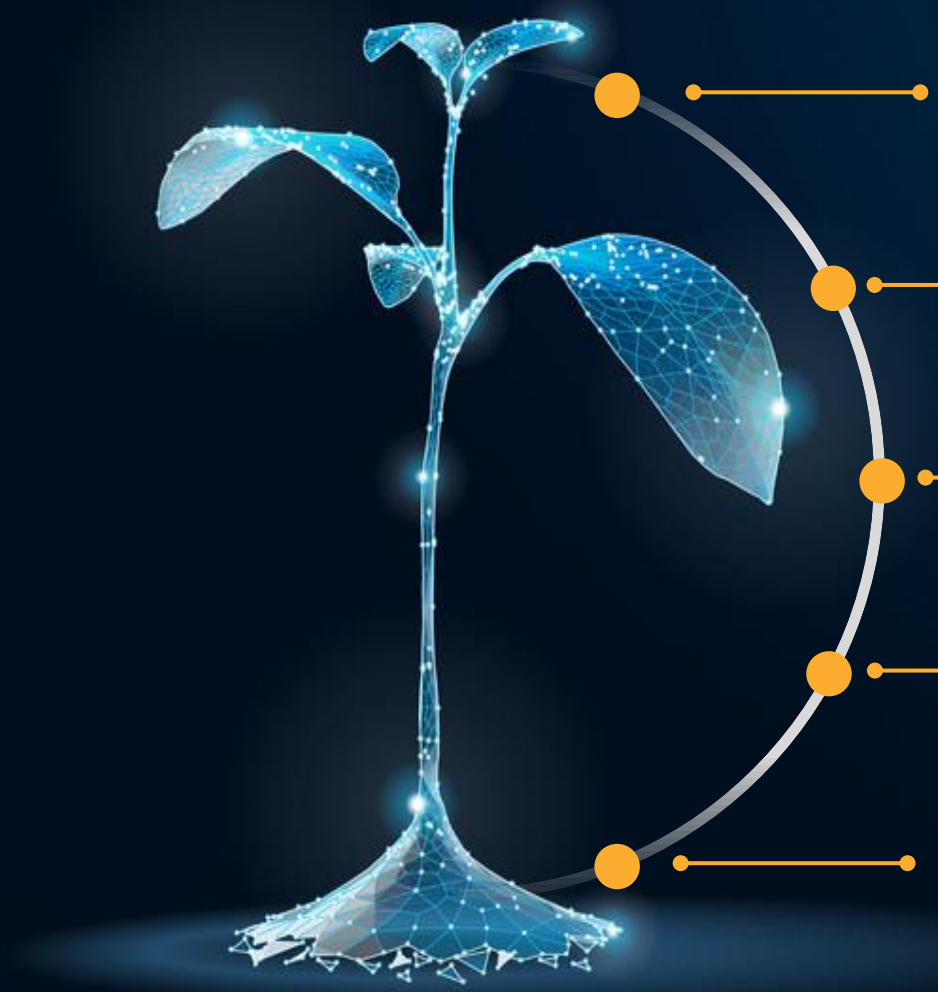
Total Drives Conducted	10 (Including HQ and Regional)
Seeds and Stems Distributed	Approx. 20K
Tie-up with Sandip University	2 Drives Organized
Seeds Distributed	100+ Individuals/ NGOs

In advanced stages of talks:
- With universities to club the momentous occasion of graduation of each student with planting a tree
- With government on Smart Forest Management Initiative

Smart Forest Management Initiative

ShineWing INDIA

An Initiative in keeping with our Mission of a Billion trees



- Smart Forest pilot phase in **2 States** Chhattisgarh and Madhya Pradesh
- Area surveillance through **CCTVs** for tracking and false activity of cutting trees
- Deployment of **Drones for tree plantation** and keep an eagle eye view for monitoring
- Focus on restoring the **ecological balance** on earth by planting trees and supporting the mission
- From crown to multi forestry of flagship to **National Level** to support tree plantation

Why ESDS ?

esds

enabling futurability..

01 India's Most Trusted Cloud Service Provider

ESDS has evolved from supporting UK & US hosting operations, to a Indian Data Center and now as a top Cloud Service provider in India

02 Our Innovative Technology

ESDS is the first Company in the World to receive patent for "Vertically Auto-Scalable Cloud" technology

03 Value We Offer

ESDS provides a wide range of products and services. eNlight 360°, eMagic are products, while iPAS & VTMScan are the SaaS offerings of ESDS

04 Clientele

ESDS is trusted by customers across all verticals. ESDS is proud to serve customers of different industries ranging from Banks, Government, IT, Telecommunication, Defense, Manufacturing and others

https://www.esds.co.in

Your Digital Transformation Partner

ShineWing INDIA

1st Company in the World to receive patent for "Vertically Auto-Scalable Cloud" technology

Founded in 2005 by first generation entrepreneur **Piyush Somani**, ESDS was initially conceived as an Outsourced Hosting Support company

Later it transformed into a web hosting business in the **US and UK**. Since then, ESDS has moved from strength to strength, establishing a huge clientele worldwide.

In a relatively short period of existence, **innovative & disruptive solutions** has put the Company in the league of competitors like AWS, Microsoft Azure, CtrlS, Sify, Alibaba, Netmagic, NextGen and Rackspace.

https://www.esds.co.in

Your Digital Transformation Partner

ShineWing INDIA

ESDS is amongst few companies that offer end-to-end Digital Transformation on Cloud, giving peace of mind to the Enterprises

Dr. Rajeev Papneja – The Chief Growth Officer of ESDS is a technocrat with a passion to drive change leveraging digital technologies.

ESDS has expertise in Managed Data Center Services, Cloud Solutions and Disaster Recovery Hosting. All ESDS Services are backed with exuberant Technical Support helping ESDS in strengthening its relationship with customers.

It has established a strong presence in almost every industry vertical – BFSI, Healthcare, Education, Energy & Utilities, Agriculture, Manufacturing, IT, Entertainment & Media, Travel & Tourism, Telecom, Government and eCommerce.

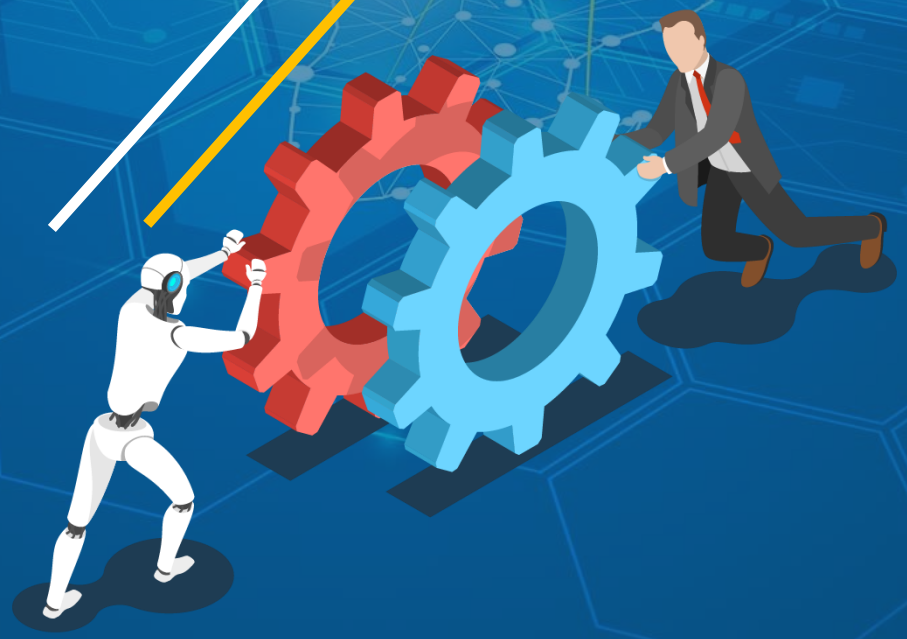
Company Overview

Journey of ESDS from supporting UK operations of its subsidiaries to India's top CSP offering **"Pay Per Consume"** billing model on Cloud. ESDS has helped Enterprises, Banks and Government to save a lot on their cost and resource utilization.



https://www.esds.co.in

Company Overview

ShineWing INDIA

2005

The Birth of ESDS

Primary focus was to provide technical support to web hosting companies from UK & USA

2006

ESDS in US & UK

ESDS took over eUKHost, Bodhost & Webhosting.uk.com

2007

Thanks a Million

ESDS turned around the companies into multi million dollar profit making units

2008

A New Vision- Green Data Center

Work began towards building India's only Green Data center

2009

Making it Massive

ESDS gave its Fully Managed Data center offering turnkey managed solutions

2010

Raising the Bars

ESDS starts up offices in Delhi & Pune to strengthen its Pan India presence

2011

Accelerating Innovations

ESDS gave Innovative and intelligent Cloud Computing platform - eNlight Cloud

2012

SAP Recognition

Trusted hosting partner in India by SAP. Also, started its operations in South America

https://www.esds.co.in

Company Overview

ShineWing INDIA

2013

Product Innovations Continue

Launched eMagic - Complete Data Center Management Suite. R&D team appraised with Cmmi level 3 from UK & USA

2014

Introducing DRaS

ESDS introduced Disaster Recovery as a Service on eNlight Cloud for high resiliency with low-cost advantage

2015

eNlight turns Mightier

eNlight Receives India's First USPTO Patent for revolutionary cloud technology

2016

A New Vision Mumbai DC & eNlight 360° launch

CM of Maharashtra launched ESDS's Tier III Mumbai Data Center and eNlight 360° product for on-premise hybrid cloud.

ShineWing INDIA

Autoscaling Cloud Technology

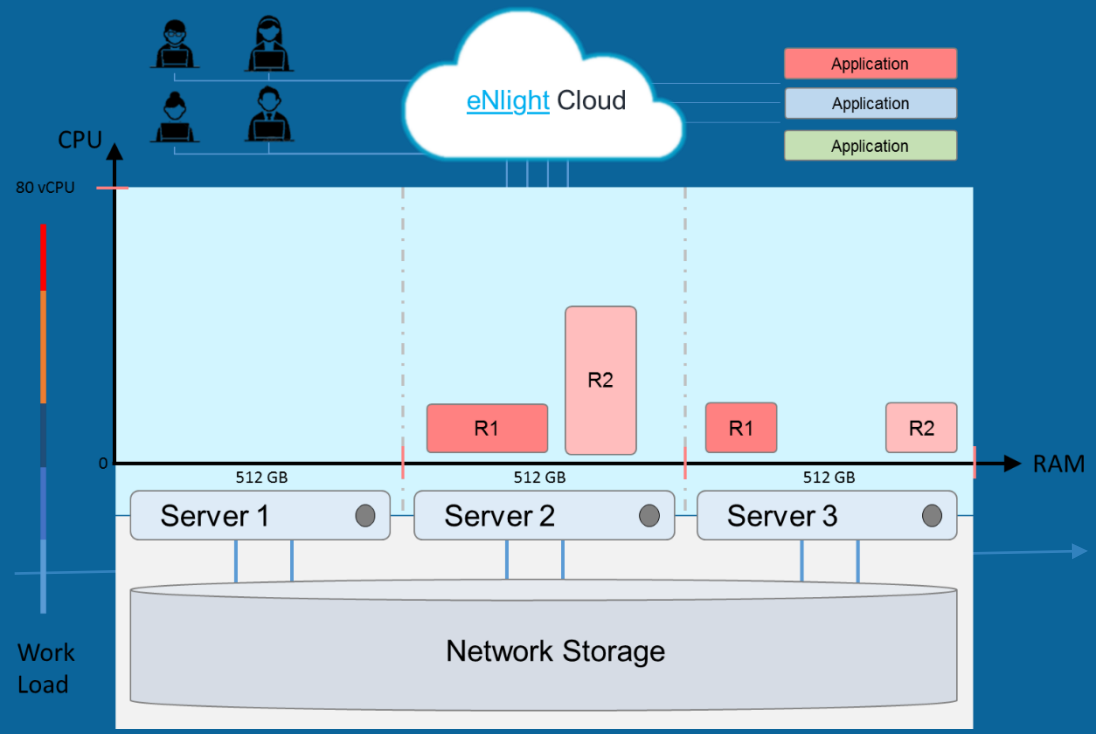
1. **eNlight cloud**, a patented technology (US 9176788, UK Patent No - GB2493812) automatically detects the need of resources and adjusts the resources without re-booting the machine.

2. It intelligently **auto-scales horizontally** as well as **vertically** which helps you to know the resource usage before-hand.

3. With eNlight **pay-per-consume billing model**, a user only has to pay for what they consume unlike the others who charge on per allocation basis.

4. With eNlight cloud manage your cloud as per your way as it is **elastic, sizeable and secure.**

More about eNlight Cloud



- Vertical Auto scalable cloud technology
- Redundancy & pay-per-consume offerings

https://www.esds.co.in

eNlight Cloud Platform

ShineWing INDIA

Fully Managed Self-Service Portal

eNlight cloud platform offers an environment to explore and discover infinite computing options on-demand. **eNlight's intelligence** of predicting the load and forecasting the changes required in a virtual machine in terms of scaling makes it novel. eNlight cloud is built on unique diagonal autoscaling (vertical + horizontal) methodology. ESDS's patented Vertical scaling technology is used to scale the VM without reboot to deliver maximum application performance. The billing is based on exact resource consumption making it a **disruptive billing** model. eNlight cloud platform provides multiple cloud-based services & unique features, which makes it an indeed **all-in-one self-service portal**. Following are some of the features of eNlight cloud platform

Multi-Hypervisor Support	Multi-Dimensional Autoscaling	Multi-Tenancy Support	Comprehensive Monitoring	Flexible Billing
•Hyper-V •Vmware •Xenserver	•Horizontal •Vertical •Diagonal	•Multiple Data Center •Multiple Organization •Multiple Users	•Compute •Network •Storage	•Pay-Per-Consume •Pay-Per-Use •Pay-Per-Reserve

eNlight IOT Platform

eNlight™ CLOUD

https://www.esds.co.in

eNlight IOT Platform

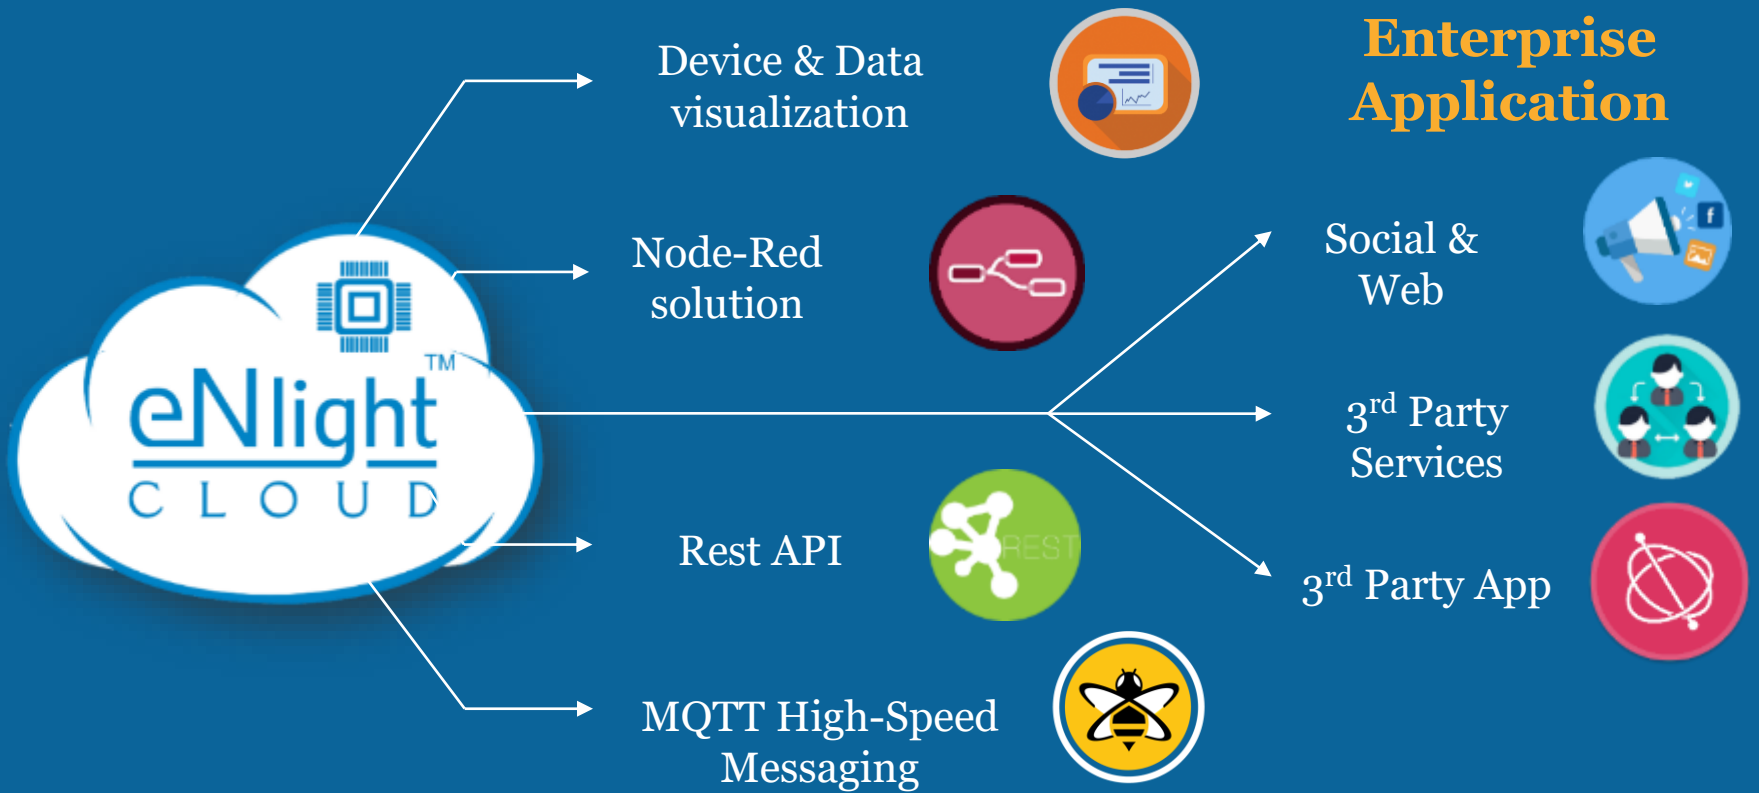
All in one dashboard of eNlight IoT allows you to monitor and manage all IoT devices and data. eNlight cloud services enable you to control your data your way. All the devices added through API key configuration will be displayed on dashboard of eNlight IoT

- **High Security:** Built on multiple layers of security, eNlight proliferates your business scope by maintaining a high caliber of data regulation
- **Auto Scalable**: eNlight IoT is deployed on eNlight cloud which allows the applications to seamlessly scale when the load increases.
- **Cost Reductions:** Per device costing with flexibility.
- **Secure and Fail Safe:** Performance is consistent, since fault-tolerance is maintained by having different node on same cluster
- **IoT Data Analytics:** Data visualization, information retrieval & rule engine
- **Fastest Connectivity:** eNlight IoT collectors placed in 4 metros of India, allow IoT device to connect with nearest collector from shortest network path with lowest latency, results into fastest data analytics

https://www.esds.co.in

eNlight IOT

ShineWing INDIA



The world will see 25 billion Internet connected things by 2020 just a short five years away. We estimate that the IoT will produce close to $2 trillion of economic benefit globally.

Value We Offer?

ShineWing INDIA

Patent around real time adjustment of CPU, RAM, Disk Space and other resources in a virtual machine based on the resource requirements of the Virtual machine running in the Cloud.

Patented Technology

Company's product portfolio demonstrates its belief in innovation such as Auto Scalable Cloud Technology, Pay per Consume Model, Data Centre Management Suite, Security Management Solution etc.

Innovative Solutions

Company's in-house developed Cloud computing platform has been compared by India's No.1 Financial Daily (Economic Times) with Amazon Cloud on multiple occasions.

Cloud Platform

Company has an experience of managing more than 7,000 physical servers and 15,000 virtual machines for more than a decade.

Experience

Inclusive service approach in all offerings is company's key strength. Company offers customized solution catering to specific needs of each client.

Inclusive Service

The Promoter has an extensive experience in Cloud & Data Center Services. He is prominent industry figure, a thought leader and innovator.

Promoter Strength

Innovative Business Solutions

ESDS enables scalability, reliability and security with next -generation cloud technology for our customers.

ESDS offers business solutions catering to customer needs. We guarantee a highly secure network with 99.99% uptime to the businesses.

ESDS promises Tier III Datacenters (design standards) with state-of-the-art facilities.

https://www.esds.co.in

BFSI Community Cloud

ESDS distinct Banking, Financial Services & Insurance (BFSI) Community Cloud is experienced in working with over **380 banks** including private, PSUs, microfinance, district central co-operatives, apex, rural, scheduled and other financial organizations.

ESDS has formed **India's first Application Service Providers (ASP) model** to cater to banks' end-to-end needs.

ESDS is committed to providing **24X7** exuberant support, **100% uptime** and accreditations from **STQC, PCI-DSS, ISO** etc.

The Banking Community Cloud backed by **eNlight Cloud** portal's SSO authentication makes management and monitoring of the cloud easier for CIOs and IT heads .

https://www.esds.co.in

ShineWing INDIA

Enterprise Community Cloud

Enterprises all over the world have acquired their famed reputation because of the provision of seamless services and security to their customers. ESDS' **Enterprise Community Cloud (ECC)** cluster provides a seamless and safe back-end so that companies can continue to serve their customers well and enhance the services on the front end.

The services are certified with ISO 9001, ISO 20000/BS 15000, ISO 27001/BS 7799 and ISO 27017 & ISO 27018 to ensure maximum security. Data is stored on enterprise storages having multiple security layers that are further strengthened by following best storage practices including isolation of storage from the public network and thick provisioning of storage to negate sharing. Hardware and network virtualization technology isolates cloud servers at the hypervisor layer for additional data security.

https://www.esds.co.in

ShineWing INDIA

Government Community Cloud

Most of the PSU and Government clients host their applications on ESDS customized **Government Community Cloud** primarily because of our double-patented vertical auto-scaling technology.

ESDS is one of the first companies to have achieved the **Ministry of Electronics and Information Technology (MeitY)** empanelment for delivering technological solutions to government customers in India.

ESDS received the **'Best Smart City Community Cloud Provider' award** for developing and hosting Smart City IT infrastructure providing solutions catering to smart city needs.

https://www.esds.co.in

SAP Community Cloud

ShineWing INDIA

ESDS has emerged as one of the top players for hosting **SAP HANA deployment** of some of the Large Enterprises and well known brands in India

ESDS SAP certified practices include- a deeper SAP know- how, expertise in SAP Analysis and Implementation, Advanced Technologies and **Tier III infrastructure.**

The SAP on eNlight cloud has become popular amongst businesses of all verticals due to its **dynamic resource scaling technology and real-time cost-savings.**

ESDS uses cloud technology where we integrate Fujitsu's Flex frame in combination with enterprise hardware providers like Dell and HP to ensure high reliability for complex SAP infrastructure.

https://www.esds.co.in

ShineWing INDIA

eNlight - DRaaS

DRaaS (Disaster Recovery as a Service) on the eNlight Cloud gives you a single independent DR Site to act as back-up for your Multiple Datacenters across the globe.

Through a DRaaS on eNlight, you'd be able to remove the panic points. We've got the experience to move you to the DR carefully. ESDS deploys best-engineered technology for Disaster Recovery Management on Cloud, which offers ultra resilient solution in the best cost.

DR environment with plan, people, policy, equipment, process, technology and an exuberant support so that you're always data-protected
